Empire Brewery.
HENNING PETERS, late of the Lion Brewery, is now prepared to supply the trade and families with all Kinds of
Beer, Ale and Porter.
The Brewery is situated on Spring Ridge, and is built over a well of pure, ever running spring water. The fact enables me to manufacture the very finest brands, equal to any imported Ale, Beer and Porter.
The machinery used is of latest pattern, the ingredients are pure water, malt and hops, and a trial is only necessary to convince that the brands are the finest manufactured in the Province.
All orders for city supply, or for shipment to Island or Mainland points will receive prompt attention and a satisfactory article furnished.

JOHN GRANT.
Victoria, B. C., Dec. 3rd, 1884. dec4-tf

THE CITY COUNCIL.

The Usual Budget of Business—An Uninteresting Meeting.

The regular meeting of the City Council was held last evening. Present—Mayor Rithet and Councillors Earle, Teague, Braden, Ward and Warner.

Minutes of former meeting read and approved.

The Clerk reported that a summons had been served upon him to restrain him from giving more water to parties outside of the city limits.

Mayor Rithet said that the hearing of the application to the Supreme Court for an injunction had been adjourned, and that Mr. Jay, in the absence of the city barrister, had taken charge of the case. It was not likely that the injunction would be granted unless a very clear case could be made out.

COMMUNICATIONS.

From G. Bossi, asking that the sidewalk on his property, on Johnson and Yates streets, be removed. Received and filed.

From P. S. Barnard, calling attention to the filthy state of a gutter on Broughton street, which was in a very offensive condition. Referred to street committee to report.

From Capt. B. Wolfenden, thanking the Mayor and Council for the use of steamer at the late picnic of the B. C. G. A. Received and filed.

From L. D. McQuade, secretary fire department, forwarding a copy of resolutions adopted by the Board of Delegates of the Fire Department, which stated that they were in favor of a paid fire brigade.

Coun. Ward moved, seconded by Councillor Braden, that a conference between the firemen and councillors be held on Friday evening next at 7.30.

From R. Hall and others, on the Gorge road, applying for a water service to connect with the main near the brickyards.

Moved by Councillor Ward, seconded by Councillor Earle that the request be not granted.

Moved by Councillor Smith, seconded by Councillor Warner, that the application be referred to the water committee to report on at next meeting.

On the question being put the original motion was carried.

LOAN BY-LAW.

Councillor Smith said that the loan by-law should have been ready to-night, but the chances were that it would not be ready for several weeks. He understood that Mr. Yates was attending to the city barrister's business during that gentleman's absence.

THE WATER SUPPLY.

Councillor Ward moved: Whereas the supply of water consumers within the city limits of the city, particularly on the higher levels thereof, has repeatedly been reported inadequate to the requirements, and in consequence thereof this Council has been compelled to refuse applicants for water actually within the limits of the said city, and whereas large quantities of water for manufacturing and domestic purposes are being supplied to consumers without the city limits and applications therefor are being continually granted by a majority of this Council to the serious disadvantage and inconvenience of a large number of ratepayers entitled to the use of the city water: Be it therefore resolved that from and after three calendar months from date of passage of this resolution the supply of water from the corporation mains to consumers without the limits of the city (with the exception of the provincial government of British Columbia) will be discontinued, and all connections with the city mains cut off accordingly, and that notice hereof be forthwith served upon each consumer as aforesaid.

The resolution was seconded by Councillor Earle and endorsed by the councillors present. It was carried unanimously.

FIRE WARDENS' REPORT.

The Fire Wardens reported that the remains of the late fire on the south side of Yates street were dangerous and should be removed, and also recommended that the regulations in regard to the storage of inflammable material in the city be carried out. Report adopted.

STREET IMPROVEMENTS.

The street committee reported that a three-foot sidewalk to Birdcage terrace would cost $210; that a sidewalk on Kingston street, between Oswego and Menzies, would cost $300. They recommended that these be laid over. The application of Sister Mary Providence, requesting that Martin's fence be repaired, was granted, to cost about $75. The application of Mr. C. Bossi, for removal of sidewalks to their proper position, to cost $79.20, was also recommended. Report adopted and recommendations ordered to be carried out.

MR. PICKEN'S PROPOSITION.

Another communication from Mr. Picken, explaining his library scheme, was read, and on motion of Councillors Ward and Teague, the clerk was instructed to inform Mr. Picken that the council could not see its way clear at the present time to assist in the movement.

Councillor Braden asked whether it is the intention of the council to make the connections on Fort street that were decided on some time ago. The drains were in a most objectionable condition.

After considerable discussion, Councillor Teague moved that the parties along the Fort street drain be instructed to connect with the lower drain from the theater and that the street committee be instructed to put in traps and pipes where necessary. Carried.

Councillor Ward enquired if the returns asked for from persons having the weighing machine in charge had been sent in.

The clerk said that notice had been given Mr. Gosnell but he had not yet sent any returns.

The question of giving a supply of water to North Park street was allowed to remain over, and the reconsideration of Mr. Batchelor's application was withdrawn.

Councillor Braden asked if a suitable site had been secured for the pound.

Councillor Earle said that a site had been selected at Spring Ridge.

Councillor Teague objected to the selection. There would be a revolution in that neighborhood were it attempted to establish it there.

Council then adjourned.

That the unholy alliance between the Grit Free Press and the Tory Manitoban has culminated in the simultaneous reduction of their compositors' wages 12½ per cent.

The Montreal board of health declares that small-pox is not epidemic in that city. The Celtic hospital contains thirty-six patients, and is crowded. A new hospital is building, which will hold fifty more patients.

OUR SCRUB STOCK.

Important Hints to British Columbia Stock Raisers worth Considering.

A New Era Dawning—Bright Prospects for an Export Trade.

Experiments have recently been inaugurated by the Northern Pacific railway management of shipping beef cattle direct from the Washington Territory ranches to Chicago. Eastern Oregon has likewise been embraced in the scheme. The result of these experiments is now being published. It is ascertained that stock can be raised on the Pacific Slopes and shipped to Chicago with a fair profit to the producer. On a recent occasion a train load of cattle from Sprague, W. T., made the distance to St. Paul, 1572 miles, in 107½ hours, and from there to Chicago in 24 hours. Upon arrival in Chicago, the cattle, 270 head, were weighed on the Union stock yard scales. They averaged 1,350 pounds. The shrinkage was very light, and not sufficient to interfere with the price. The price received was $5.25 a hundred, or $67.20 per steer. It is known that the shipper made a neat little sum out of the experiment.

IN BRITISH COLUMBIA

an equally satisfactory change in affairs will be brought about very shortly. Our farmers and stock raisers must give greater heed to improving their breeds. Much of the present low grade scrubs will have to be replaced by a superior class if an export business is to be attempted. The experience of Ontario can be applied with profit to this province. As an example, the counties of Wellington, Waterloo and Middlesex can be quoted wherein marvellous changes in stock raising has taken place within the last ten years. All this has been achieved after a determined effort to abandon all

SCRUB BREEDS IN CATTLE,

horses, sheep and hogs. Every precaution was taken to prevent inferior animals, of either sex, running at large. Heavy fines were inflicted on their owners until they were compelled to follow the course adopted by their neighbors. Now they have almost attained perfection. The export business in cattle has assumed gigantic proportions, and yet rapidly increasing. It has been demonstrated that for the export trade it is necessary to have a breed of stock whose steers will attain a weight of at least 1300 lbs. in about three years, with ordinary feeding. If stall feeding has to be resorted to this high standard can and is frequently excelled.

FOR EXPORT PURPOSES

no steer or heifer of a less weight than 1200 lbs. is desirable, as the price for ocean and rail transport is by the head, not by weight. While there are many ranchers in this province who have herds of fair breeds, the vast majority are of a class that can never be sent east with advantage. In them there is too much bone and to heap flesh thereon is an impossibility, because they were not created to carry any such "mountains of flesh" as are the thorough breds in the

DURHAMS, HEREFORDS, GALLOWAYS

or the Polled Angus, of which breeds it is not an unfrequent occurence to find animals attaining a weight of even over 3000 lbs. High class grades are possibly preferable as beef producers, but it is necessary to import thorough breeds before these can be procured.

OUR PIONEER STOCK MEN.

THE TIMES is pleased to know that Dr. Tolmie, Mr. Fell, Mr. Sandover, Mr. Kirkland, Mr. Steele, J. D. Pemberton, Mr. Turgoose and others in this province are setting our farmers an example that they should emulate and set to work at once to introducing breeds of cattle, sheep, hogs and horses, that in a few years would raise this province into fame as a stock producing country. The C. P. R. will give such rates as will enable producers to take advantage of the markets of the east and Europe. The provincial government should encourage the scheme by giving a bonus to every importer; already it recognizes the bonus system in various ways and to none more deserving could a bonus be given than to our stock importers. We shall be pleased to hear from our agricultural friends on this subject.

Fruit Canning in California.

In California, of fruits especially, will probably far exceed in quality those of former years. There has been an abundant fruit crop of superior quality, sugar has been cheap, and canners have combined to pack for profit, purchasing only the choicest fruits. The peach pack will be finished in about a week, and will be a very superior one. Bartlett pears have been in full supply, as several consignments intended for eastern shipment have been placed on the market. Prices have ruled in favor of canners, 20@25c. per box less than last year. The plum crop has been sold in quantities at rates to suit buyers. The new season's pack of berries and small fruits is already being placed on the market, though sales have hitherto been light. Taken all in all, the quality of 1885 California fruit pack will be an excellent one, and should go far to increase and more permanently establish its reputation. British Columbia has hitherto been a good market for the Eldorado state, but the indications now are that in a few years in fruits as in many other products of the soil we shall be exporters instead of importers.

The Columbia Salmon Pack.

It is asserted that the shortage on the Columbia and Sacramento rivers this year will be about 200,000 cases. Buyers, however, hold back on account of their experience with the "wolf" cry in former years. There was a heavy run on the Columbia in July but it was of brief duration. The volume of the pack will be accurately determined this month. There is but little inquiry except for eastern shipment and on Australian account. Quotations are for city $1.10@$1.12½ for first brands and $1@$1.02½ for ordinary; on the river for export 95c.@$1.05. July is the busy month for salmon canners, not only on account of the larger run, but also because of the necessity, owing to hot weather, of immediate cooking. There was a sudden and unexpected run of fish on the Sacramento river, but there was no catch, as it would have necessitated a suspension of fruit-packing operations which were in full progress. It is probable that salmon operations will be resumed in the latter part of this month.

An injunction forbidding the re-naming of Sackville street, Dublin, under a penalty of £1000, has been served on the Lord Mayor.

THE WIDE WORLD.

THIS DAY'S DESPATCHES

The Trade Trouble.

Special to THE TIMES.

DENVER, Col., Aug. 19.—No action thus far has been taken by the Knights of Labor employed by the Union Pacific upon the St. Louis order. Wabash freights are being handled as usual. The railroad officials claim that the order will be ignored by the Union Pacific knights.

ST LOUIS, Aug. 19.—The action of the National Executive Committee of the Knights of Labor, in issuing a general order to Knights employed upon roads west of the Mississippi river, prohibiting handling or repairing Wabash rolling stock, has been followed by no serious results. To-day members of the Wabash committee, which is in session here, are of opinion the full force of the order will not be felt by the railroads for several days yet. Telegrams have been received by them from different parts of the state from branch assemblies of the national organization, endorsing the issuance of the general order, and indicating their intention to stand by it. A meeting of Knights all over the west will be held as soon as the order is received by them, and it is expected that concerted action will be taken by the 21st at latest. G. J. Russell, of the committee, says that resolutions calling for the impeachment of United States Judges Brewer, Trent and Kreikle will be carried out if possible. Congressman Warner and Gen. Palmer will draw up the articles of impeachment which will be introduced in congress and pushed with all the influence which the Knights can command. Trouble is expected at Kansas City shortly. A number of yard and train men at that point are Knights, and in obedience to yesterday's order, it is thought they will refuse to handle Wabash cars, in consequence of which all Wabash freight will be sidetracked.

ST. LOUIS, Aug. 19.—1:30 p. m.—Nothing has yet been received from any point in this State or beyond of any trouble growing out of yesterday's order, and in all likelihood nothing will occur for a day or two, or until the order shall have reached at least the principal points on the roads named in order, the National Executive Committee having turned the whole matter over to the District Commissions, with power to act. They will issue no more orders, and started this morning for the east, where they have some other matters to look after. The members of the committee representing the Knights on the southwest system, left for their homes last night, and will more fully explain yesterday's order to the various assemblies. The Wabash Committee will remain here and transact such business as may be necessary. There has been no delay to passenger trains here as far and none seems to be apprehended, immediately, although it is understood that the order applies to passenger coaches as well as to freight cars and other rolling stock.

Investigating for a Cause.

Special to THE TIMES.

WILMINGTON, Del., Aug. 19.—Captain Wiley and Pilot Carey have been overhauling the plaster and other debris on the steamer Felton this morning, and have found a fragment of metal belonging to a cable, a bunch of bright twisted wire and a piece of tin believed to have been the lid of a dynamite canister. The canisters to which such a lid would belong are one inch in diameter and three inches in length, and it would require several of them to do the work of explosion. The finding of the cable clasp is considered as important, as corroborating the statement of a colored passenger, Hiram R. Miller, of Morrisville, N. Y., that he saw a man unhook companion way door, place a cable behind it, and relock the door. The Government Inspector, Frank Hand, and Master Machinist Callahan, examined the boiler this morning and found the tubes behind the indentation bent inward but sound and unbroken.

Ohio Democrats.

Special to THE TIMES.

COLUMBUS, Ohio, Aug. 19.—The delegates to the Ohio State Democratic Convention began to arrive to-day from different parts of the State, and it is thought all will be here by this evening. The indications point to a large Convention and there is a probability of short work, resulting in the nomination of the old ticket. There is no organized opposition to Governor Hoadley, and the expressions of the majority of delegates are that he will be nominated on the first ballot. Judge Thurman has refused the use of his name for Governor, and the opposition to Hoadley is not inclined to combine on another. A district meeting will be held this evening for the selection of members of various committees, and the Convention proper will convene to-morrow morning.

Gladstone Takes a Walk.

Special to THE TIMES.

LONDON, Aug. 19.—The yacht Sunbeam on which Gladstone and his wife and daughter are the guests of Sir Thomas W. Brassey, reached Bergen, Norway, this morning. Gladstone has already been greatly benefited by the trip. On Monday, while the yacht was at anchor, he went ashore and walked from Eidfjord to Veringfers, a distance of 18 miles, notwithstanding the road was a rough one. Gladstone was not fatigued and was delighted with his jaunt.

An Actor Suicides.

Special to THE TIMES.

NEW YORK, Aug. 19.—Wm. Carlton, 58 years of age, a well known actor, committed suicide early this morning by turning on the gas and shutting off all ventilation from his room. The remains were removed to the undertakers and buried by actors fund.

A Crank's Advice.

Special to THE TIMES.

PARIS, Aug. 19.—Rochefort, in his paper Entrainsigeant, continues to demand vengeance of England for the alleged murder of Oliver Pain. He still thinks Lord Lyons, British Ambassador, should be made the object of attack by friends of Paine, and advises them to publicly insult that gentleman.

Treason to Country.

Special to THE TIMES.

ROME, Aug. 19.—Reforma says: Vessel and wife, who were arrested with Signor Duraldo, editor of the Monitore Deffenza, for selling a foreign power plans of Italian maritime defences, have attempted to commit suicide. Riforma says Duraldo intended the plans for France.

Clashes in France.

Special to THE TIMES.

TOULON, Aug. 19.—There are 5 cases of cholera in the garrison here.

Germany and the Hog.

Special to THE TIMES.

LONDON, Aug. 19.—The News this morning says that Germany has consented to the resumption of importation of swine from Austria and Hungary. This action has produced an excellent impression in Vienna and Pesth, and is regarded as the first step on the part of Germany to a clear understanding of customs difficulty which has been prevalent for so long.

Cremation Recommended.

Special to THE TIMES.

PARIS, Aug. 19.—The Prefect of Police concurs with the decision of the municipal authorities favoring the cremation of deceased bodies from the hospital, on the ground not only of economy, but such a course will relieve the crowded cemeteries.

The Reconquest of Soudan.

Special to THE TIMES.

VIENNA, Aug. 19.—A dispatch from Cairo to the Political Correspondent, says the Egyptian War Minister is compiling a proclamation to Arabs, urging the necessity of the reconquest of the Soudan for Egypt.

The Great Scourge.

Special to THE TIMES.

MADRID, Aug. 19.—There were 4271 new cases of cholera, and 1528 deaths throughout Spain yesterday.

A Long Pending Suit.

KALAMAZOO, Mich., Aug. 18.—The case of D. C. & H. C. Reed & Co., patentees of the spring tooth harrows, vs. Chas. E. Taylor & Co., et al., for infringement of patent, was tried in the United States Court at Grand Rapids. Justice Stanley Matthews finds for plaintiffs. The case has been before the courts several years, and involves the entire spring tooth harrow business of the country for the past 15 years. By this decision every farmer using, and every concern making any sort of an infringement will have to pay a royalty. The case is one of the most important ever decided in this country.

Poundmaker's Sentence.

WINNIPEG, Man., Aug. 18.—The jury found Chief Poundmaker guilty of treason felony, and Judge Richardson sentenced him to three years in the penitentiary.

Another Financial Shedoddler.

TORONTO, Aug. 18.—E. E. Knott, a real estate and insurance agent and a director of the Central Bank of Canada here, has fled to New York, leaving large liabilities. He succeeded in borrowing several large sums of money before leaving, having been considered financially sound.

Conferring Honors on a Worthy General.

OTTAWA, Aug. 18.—Gen. Middleton has been created a Knight Commander of the Orders of St. Michael and St. George for services rendered in the Northwest during the rebellion.

Accepts His Dental.

LONDON, Aug. 18—The constituents of Sir Charles Dilke at a meeting to-day resolved to accept Sir Charles' denial of the charges brought against him, and to support him in the coming election.

MARINE NOTES.

The bark Isabel, which brought the cargo of tea to Tacoma will load lumber there for Valparaiso, Chili.

The steamship Idaho was in dry dock at San Francisco two days last week. She had a large keel piece and new stern bearing put in. A new sectional composition wheel weighing 900 pounds was put on.

The steamer Wilmington is laid up in Oakland creek, and has two men on board to look after her. She was subsidized to lay up by the Pacific Coast Steamship Company, and under an agreement entered into with the Pacific Mail Company some years ago, never to run in opposition to steamers in their line, there is no route left for her, unless it be to the Sandwich Islands, or to Mexico. It is more than likely, however, that she will lay up in the creek for some time to come.

The P. T. Argus of 18th says: Pilot Capt. McFarland, of the schooner Mist, returns to the Cape to-day. He piloted the British bark Robert Kerr to Royal Roads, arriving there August 10th, 102 days from Panama. She will load spars at Barrard Inlet for England. Her crew, composed of negroes, arrived suffering from scurvey. Pilot McFarland says a tax of 75 cents per foot was exacted from the vessel on her arrival, in connection with pilot dues. An English pilot brought the French bark Louis IX to Port Townsend and got off with every cent of his pilot money. So much for no pilot law.

FROM COMOX

Mr. D. H. McNeil, government guide, returned last week from another extended exploration trip of Comox, Fanny and Deep days, Denman and Hornby islands. During his trip he located a party on land in Comox who are extremely well pleased with their selection. In that district there is still considerable good land and room for many more settlers. It is intended to extend the road a distance of 14 miles from Comox valley to Oyster bay, where there is considerable swamp and alder bottom lands.

Mr. J. Pickett, of Denman Island met with a severe accident while chopping, by a tree falling on him. Had it not been for the timely assistance of Mr. T. Nelson who cut the tree and relieved Mr. Pickett in his perilous position it is certain he would have perished. He was taken to Comox for treatment, and at latest accounts was progressing favorably.

Mr. McNeil likewise met with a somewhat painful accident, by spraining his ankle in jumping from a windfall. He was assisted by Mr. Alex. Cowie, a settler at Fanny Bay, to whom and his family Mr. McNeil expresses sincere thanks for their kind hospitality. He will leave again shortly for the north.

The Rev. H. R. Owen, of Quamichan, [illegible] been a resident of this province for a number of years. He likewise had a charge near Toronto and is an enthusiastic admirer of his adopted country.

The New York World's subscription list to raise $100,000 for the pedestal of the Bartholdi statue was closed to 147 days. The $100,000 raised by popular subscription for the Bunker Hill monument was obtained in eighteen years.

Krupp has just turned out of his foundry for the Italian government four huge guns, weighing 120 tons each. One of these guns with a charge of 660 lbs. of gunpowder throws a shell nine miles.

The undersigned Agent for the Victoria Warerooms wishes to inform the public that he has received a large consignment of the celebrated Singer Sewing Machines, which he is selling at the following prices:

Address, THE TIMES P. & P. Co., Victoria, B. C.

J. C. McLAGAN, Manager.

NOTES AND COMMENTS.

THE Society for the Suppression of Vice has employed detectives to shadow every member of the House of Commons and report the places visited by them. The members are furious, but they are afraid to complain for fear of increasing the notoriety and making it appear that they have something to be ashamed of.

TWENTY thousand Hungarians who have been working in the Pennsylvania mines are preparing to migrate in a body to Northwestern Canada, where the Dominion government will give them 200,000 acres of fertile land. They were agricultural peasants in their native land, and are tired of mining. This is the largest movement of population in a single body that has ever occurred in this country.

GLORY is not purchased cheaply. Last year the armies and navies of Europe cost the enormous sum of $917,599,985, while the national debts absorbed the sum of $1,036,159,075 for interest alone, the aggregate national debts reaching the almost inconceivable amount of $23,011,949,705. At the head of the list stands Russia, whose army and navy estimates reached $230,512,500, and the interest on her national debt $168,656,935. France, England, and Germany come next in the order named.

THE new Chinese ambassador to France on being asked what he thought of events in Annam and of the probability of insurrections against French rule there, said: "Oh, that is not any of our affair; we have performed our duty; we have executed the treaty." Evidently, so far as Annam is concerned, the Chinese are glad to leave the responsibility with France. To use the vivid expression of an English statesman, they take somewhat of a malicious pleasure in seeing the French "stew in their own juice" in that quarter. It is a pretty expensive stewing for the French, to say the least, as the budget indicates.

CONSIDERABLE comment has been excited by the difference in the returns made by the Grand Trunk Railway Co. and the Canadian Pacific. We last week published the respective earnings of the two companies for the last week of July in round numbers, the Grand Trunk at $269,000 and the C. P. R. at $301,000. The former has a road of 1912 miles and a capital account of over $280,000,000, while the latter has only a completed road of 2794 miles and a capital of $110,000,000; yet the Canadian Pacific with the lesser running road and less fixed charges has earned in the week $41,000 more than the Grand Trunk, and though still an uncompleted road, nearly enough to pay all its fixed charges.

SIR CHARLES DILKE'S appearance in the Commons a few evenings since was the signal for a round of cheers from the Whigs and Radicals, which were answered by ironical cries of "Hear, hear," from the Tories. The Liberals were largely in the majority and their cheers gradually drowned the voices of the Tories. The incident was somewhat significant, as showing that the Liberals are determined to stand by SIR CHARLES, and to condone, or at least ignore his private vices while he is under fire from the common enemy. The committee of his party appointed to consider his case has postponed its decision in order to consult their leaders. Meantime the Conservatives have caused Chelsea to be placarded with bills bearing the seventh commandment, without comment.

SOME time ago the corporation of Dublin, in a fit of ultra nationalism, determined to wipe out all recollections of the Saxon invader by renaming the streets of the city which perpetuate the memory of English peers and generals. Sackville street was to be rebaptized and bear the name of O'Connell, but the shopkeepers, uninspired by patriotic ideas and being swayed by base mercantile considerations, objected, and brought the matter before the courts, and the judges hold that the name of the street was part of the consideration for which the shopkeepers paid, and that it could not be altered without the consent of a majority of their number. An injunction forbidding the renaming of Sackville street, under a penalty of £1000, was served on the Mayor. Thus the name of what G. A. SALA considers the finest street in the world is preserved from political iconoclasm for the present.

TRADE IN SAN FRANCISCO.

Recent advices from San Francisco are to the effect that the indications point to a decided improvement in trade there this fall and preparations have accordingly been made by dealers in anticipation of such a long looked for event. The Pacific Coast is guided outwardly by eastern reports, which are now more encouraging, though the volume of business transacted in San Francisco during the first half of this year was considerably in excess of that of last year in value. But the values quoted do not show the proportionate increase in quantities, as prices have declined. Grain being the leading interest, and prices depressed, there is an apparent slow business movement. It is doubtful, however, whether an examination of the accounts of business men would not show that there has been but little curtailment in expenses, and that profits have not diminished. Reports from all interior points are encouraging, and in Oregon and Washington territory the wheat crop is estimated at 30,000,000 bushels, which will cause increased activity in that direction. The effects of these indications must be felt in San Francisco. Trade is larger but more divided. Immigration and increased population, especially in agricultural districts, has been steady and of a permanent character. Short wheat crops, and low prices for some other products, have tended to cause depression. Yet if the wheat crop had been larger there would have been the same feeling because of the probable tendency to lower the value of cereals. Trade generally is larger than it has been, and with the steady consequent settlement of the state there is every reason to anticipate a constant, regular and permanent increase.

THE COMING CONTEST.

It is feared that MR. GLADSTONE'S voice has completely given way. Should this supposition turn out to be a reality the chances of the Liberal party for carrying the approaching election are certainly very problematical. Beyond dispute it was MR. GLADSTONE'S speeches, not merely at Midlothian, but at places where a crowd could be addressed, that turned LORD BEACONSFIELD'S government out of power in 1880. The course of events in Central Asia and Egypt have spoken eloquently against the late government and resulted in so weakening MR. GLADSTONE'S following that his adversaries were enabled to overthrow him. They calculated, however, on such absence from power being only until the general elections, when the voice that had before carried them into office was to perform that agreeable feat once more. If that voice is silent, where is the hope, for it was the oratory of the man that worked the spell? Not in MR. CHAMBERLAIN; he is a power in Birmingham, and not without influence in some of the more northern towns, but from GLADSTONE to CHAMBERLAIN is a very much longer step than the people of England are at present prepared to take. There is much, very much, of England that knows not Birmingham. It has been an open question with many well qualified to judge, whether gratitude for the extension of the franchise or the inclination to run in old grooves would prove the more potent factor with the bulk of the enfranchised two millions at the next elections, and if the campaign is to be fought without the aid of MR. GLADSTONE'S eloquence, the Liberal party will find themselves heavily handicapped.

THE London *Standard* and SIR RANDOLPH CHURCHILL are at loggerheads, and the *Standard* refuses to publish a speech recently delivered by CHURCHILL, in which that lively young gentleman replies to the criticisms made upon him by that and other journals. It certainly cannot be laboring under the delusion that it can by such means prevent the speech from coming to the knowledge of the British public. And it is to be hoped that its editor is not so foolish as to think that the naughty boy will regard this mark of displeasure in the light of a punishment. Perhaps, on the other hand, the *Standard* did not have a crushing reply at hand, and so concluded that the best way out of the matter was to ignore the matter entirely. Of course, no first-class newspaper would have dared to risk its reputation by such a procedure, but a careful study of London journals is apt to lead one to the conclusion that the reason of their being is not that of furnishing their readers with the news.

THE Royal Commission on the depression of trade is in a bad way. The Conservatives are extremely indignant because, in LORD SALISBURY'S words, "he is boycotted by the Liberals." Lord Lidlesleigh cannot get a single first-rate Liberal financier or economist to serve. Trade and shipping will be fairly well represented by outsiders. The Tories say it is unprecedented and unpatriotic for members to decline to serve on a Royal Commission. The Liberals reply that to put only two or three free traders on a Commission of twenty persons when free trade is the orthodox and irrevocable policy of England is ridiculous. The Radicals say the Tories might as well ask a man to join a commission to determine whether a man is better with or without fetters on his legs. All the possible facts are already known by the Board of Trade. Even the *Standard*, the Tory organ, denounces the scheme. The following are some of the leading questions to be asked: To what the depression is due? Whether it is liable to occur periodically? Whether it is equally diffused, or is confined to particular industries or localities? Whether it is distributed among workmen, middlemen or employers? The truth is the plan is a party dodge, a sop to be thrown from Tory platforms to mislead workingmen. Such at all events is the opinion of those professing a familiarity with the whole subject in England.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetser, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S
Cherry Pectoral

IS NOT a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic **Bronchitis, Laryngitis,** and even acute **Pneumonia,** and has saved many patients in the earlier stages of **Pulmonary Consumption.** It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of **Croup and Whooping Cough.**

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Ayer's Cherry Pectoral,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists.

OBSERVE!

800 yards Stark 8 oz. White Duck

The attention of intending Assurers is called to the advantages specially offered by this Association.
The Association merits the confidence that the public is crowding to it from the following facts:
1st. SECURITY offered to Policy holders in UNEXCEPTIONABLE GOVERNMENT DEPOSIT of Cash and Securities.
2nd. SECURITY offered to Policy holders in UNEXCEPTIONABLE Currency basis of Valuation in Canada.
It has NO ELEMENTS of uncertainty, but the well-established lines, hence the Policy holders cannot be misled as to their contracts.
ITS STATEMENTS TO THE PUBLIC can be readily understood, as each statements showing every item of income and how expended.
ITS POSITION IS ASCERTAINED ANNUALLY from a detailed valuation in which every item of Liability is minutely applied.
ITS PROFITS HAS BEEN DETERMINED by the Actuary of Insurance in Canada.
ITS POLICIES are INCONTESTABLE after three years, and NON-FORFEITABLE after two years' existence.
ITS PROFITS AND DISTRIBUTION MODE, an equitable feature. The profits to one class of policy holders are not allowed to give larger profits to any other class, which method affords superior advantages over the Uniform Reserve plan of distribution.

Liberal Conditions as to Residence and Travel.

Hunting Sea Lions.

[Washington Star.]

Capt. Cyrus A. Eastman, of San Francisco, a bearded, rugged-looking old sea lion himself, gave to a reporter the following account of his late capture of two families of California sea lions at the island of Anacapa, about 200 miles south of San Francisco bay. The order came from Mr. Robbert Garrett, the railroad president, to secure, if possible, a first-class lot, nearly as full-grown as possible, and stimulating (particularly that their transportation should be taken so far south as to make acclimation easy. The catch was made in April last, three weeks being spent mainly in watching and waiting for an opportunity to lasso the whole party at once.

Capt. Eastman, with fifteen trained lassomen, after watching the animals for several days and nights, at the opportune moment and at a signal from the men in the rocks above, rushed upon the lions, dividing in two parties, so as to head them off from the sea. As the animals made for the water, their heads stretched upward, the lassoes were thrown, two over each. As the lions felt the touch of the rope they raised a flipper to throw it off. This sealed their doom, for as the rope passed over the flipper the lassoman drew the rope taut, making a turn about the nearest rock and escaping to a safe distance, until the animals should wear out their strength in vain endeavors to break away from the strong whale lines bound about them. They were then at once secured in cages, strong boxes, by watching the proper moment and tipping it over them and running planks underneath the cages, thus forming a floor, and afterwards turning them back over again, until the planks were secured with nails, ropes, etc.

The attempt to even deal very gently with them is attended with danger, but Capt. Eastman does not seem to fear them, although he shows many scars, the results of a too close intimacy with these ferocious animals. The captain proposes to put them within the inclosure of Athlese park this summer, and will probably afterwards dispose of them to the Central park commission, New York. There are four of them belonging to Capt. Eastman. The other three were for Robert Garrett, who gives them to Druid Hill park.

A Yankee Boy's Enterprise.

[New York Times.]

Three or four years ago a New York youth scarcely above his majority, went down to the isthmus of Tehuantepec, just north of Yucatan, to work for the Inter-Ocean Railroad company. He was a telegraph operator, and a good salary, along with an ambition to see the world and enjoy odd adventures, tempted him. He is home now. He has enough of Tehuantepec salaries, and more than enough of Tehuantepec adventures. As for seeing the world, he has seen quite enough of that part of it. His hair-breadth escapes would probably not interest money-making New York as much as a passing reference to a little commercial enterprise with which he has ended his southern career.

In the part of the world where he has been disporting two of the native characteristics are a Yankee love for cash and a feminine population with incomparable suits of hair. Long and heavy and silky tresses cover every woman's head. The ladies seem to be proud of their hair to a certain extent, but money stifles pride, and a good many of the natives are wearing their locks in the intellectual fashion now, thanks to this New York boy's enterprise. He has been buying up the raven tresses by the thousand for shipment to this city. On an average a full suit cost him 50 cents in spot cash; sometimes he was spendthrift enough to squander a whole dollar on an exceptionally fine article. Here an open market has given him profits handsome enough to equip a very snug bank account.

I do not recall precisely the sum he had averaged for each suit sold, but it was a very considerable pile of dollars, and sales have been ready. "There is a big fortune in this business for somebody," he said, "but for myself I've had enough. After a man has put in three solid years eating black Mexican beans and drinking vile Mexican logwood in Mexican back woods, dollars look a little less fascinating than they do up here in a land of civilization. Somebody else is welcome to future profits."

Car Flour in Brazil.

[Buffalo Commercial.]

Brazil buys from the United States $5,000,000 to $6,000,000 worth of flour in a year. American exporters, when flour is cheap, as it is now, occasionally send largely increased quantities, and expect that a market will be made for it. Its cheapness, however, seems hardly to make a difference in the quantity consumed. Some 30,000 barrels a month are consumed at Rio and its dependent markets, and it seems almost impossible to increase this consumption. At Rio the bread is all made by bakers. It is of a good quality and is eaten by all classes.

The great obstacle to expanding consumption is the lack of internal transportation, and the fact that the mass of the people have never been accustomed to use flour, they being satisfied with the flour made from the manioca root, and which they habitually eat mixed with their stewed black beans and dried beef. A large part of the interior population produce and buy but little. They live in a primitive manner, in cheap dwellings with thatched roofs and earth floors, sleep in hammocks, use but the scantiest articles of furniture, and even convey their food to their mouths with their fingers.

A Dime's Worth of Smoke.

[San Francisco Alta.]

There are many novel ways of making a dime, but the last just inaugurated by the Mexican boys of Yuma caps the climax. It is the selling of smoke in old tin cans from the burning of a weed called "loco" bush. They go from house to house and offer to furnish enough smoke to drive the mosquitoes away for the small sum of 10 cents.

"SLAP DOCTORS."

A CURIOUS SUPERSTITION AMONG WASHINGTON NEGROES.

Stories Told of the Colored Dwellers in the Capital—Horror of the Black Man for Medical Colleges and Students.

[Washington Cor. Brooklyn Eagle.]

The "slap doctor" scare among the Washington negroes has assumed such a serious aspect that the authorities think of taking the matter in hand. The dense negro population in the national capital contains many ignorant persons, who faithfully believe in the virtue of voudoo doctors, fortune tellers, haunted houses and conjurers. Some of them are even more credulous and superstitious than the Sandwich Islanders, who read their fate in the phosphorescent gleam of the rolling breakers, or see hosts of uncanny spirits trooping along the white sea beach in the weird, half tropical moonlight of that charming region. The superstitious Washington negro regards the medical student with holy horror, and looks upon the dissecting room of a medical college as a charnel house, where human beings are killed after being captured by the dreaded "slap doctor," and their bodies given to the students for dissection. That nearly all the "stiffs" used during the college season are the mortal remains of luckless colored people who were trapped on dark and rainy nights by the terrible "slap doctors" and sold to the colleges. The Eagle correspondent asked a negro messenger in one of the departments if he had ever seen a slap doctor.

"No, sah," he replied, "but I has often hears tell ob 'em. Dey wears a long black cloak an' a mask ober der faces. De slaps only goes out on rainy nites, when it is as dark as charcoal. Dey carry a sticking plaster an' when dey ketch you dey slap de plaster ober your mouf so you can't holler, den dey tie you and de next thing you knows you's wagon trabbelin' fer de medical college like a coon 'scaping from a pack ob hungry hounds. Dere's no tellin' how many hard workin', honest collud men has bin killed by dem murderin' slap doctors."

This feeling has been so wrought up among the ignorant blacks that it is unsafe for a physician to visit certain sections of the city. An incident of recent occurrence will illustrate the extent of the feeling referred to. A colored man who was lying in a hovel in Brown's alley, suffering from a complication of disorders, aggravated by the attentions he had received from a negro herb or voudoo doctor, was finally compelled to summon a reputable white physician. The latter visited the sick man and informed him that in order to save his life he would have to endure an operation which called for some cutting with instruments. The negro acquiesced, and the medical man summoned several brother physicians to witness the operation and assist him if necessary.

When the time to perform the delicate surgical work arrived, four physicians drove up to the shanty in their carriages, and entering the dingy place proceeded to work. The wife of the sick man witnessed the first cut of the lancet, and saw the blood fly. This terrified her and she immediately went out into the alley, which is populated by very ignorant negroes, and spread the alarming report that "de slap doctors are in dar cuttin' up my poo' husband." A large crowd soon assembled about the place and shouted, "Let dat man alone or we will mob yer." They finally made a demonstration with stones and clubs, and the physicians were compelled to beat a hasty retreat, with two policemen bringing up the rear. The operation was not finished and the sick man died the following day. The physicians say, had they been allowed to finish the operation, the man would have recovered.

Another case was that of a colored woman who became insane on the subject and was found wandering about in the woods in the suburbs of Washington by the police. She was placed in a cell, and for nearly twenty-four hours howled like a wild beast at intervals beseeching the officers to protect her from the slap doctors, who wanted to grind her up and make castor oil of her pulverized remains.

The uvenile negroes stand in mortal dread of the terrible doctors and their mouth plasters, and it is only necessary to yell "Slap doctor" at one of them at night, or even in the daytime, to throw him into spasms or make him outdo the best time ever made by a race horse. Lately the tricky voudoos who infest this section have made much money by selling charms to the superstitious, which they allege will protect the wearer from the wiles of the tricky night doctors. The principal charm for this purpose is a string of beads to be worn around the neck. They charge $5 for the beads and claim that they are made of infants' bones saturated in the oil of tree toads and horned lizards.

The Mastery of a Language.

[Detroit Free Press.]

The real colloquial acquisition of any foreign tongue is stated by Dr Walshe, in a recent work on the linguistic faculty, to be extremely rare. He thinks it next to impossible for a man to learn his own and even one other language so as to speak both of them with a proper intonation, inflection, vocal ring, pronunciation, accent and fluency so well as to be able to translate from either language into the other with correct phraseology, word collocation, and idiom an epigrammatic article on the topics of the day and a serious disquisition on a problem of art or literature. Apart from the mental qualifications which must be united in one individual to enable him to readily master a foreign tongue, there are many of a physical character which evidently can be but very rarely overcome.

Ruin of St. Anthony's Falls.

[Exchange.]

It is said that the waters of St. Anthony's falls, Minneapolis, are eating their way around the apron and tend to ruin the magnificent water power. Several years ago a wooden apron was built under the falls to protect the soft sandstone ledge over which they flow and through which the water was eating. Water has got under the wooden protection, and it seems certain that the whole thing must go. If this happens the damage to milling property will reach millions of dollars.

A Remarkable Product.

[Arkansaw Traveler.]

The seeds of the Kola tree, the highly-prized stimulant of the natives of Africa, appears to possess qualities which should give them a commercial value in civilized countries. Mr. T. Christie, an English writer on new commercial plants and drugs, asserts that chocolate made with Kola paste is ten times as nutritious as that made with cocoa, and that a laborer can work all day without fatigue on a single cup of tea at breakfast time.

Advertising Cheats!!!

"It has become so common to begin an article, in an elegant, interesting style,

"Then run it into some advertisement that we avoid all such,

And simply call attention to the merits of Hop Bitters in as plain, honest terms as possible,

"To induce people

"To give them *one trial*, which so proves their value that they will never use anything else."

"THE REMEDY so favorably noticed in all the papers,

Religious and secular, is

"Having a large sale, and is supplanting all other medicines.

"There is no denying the virtues of the Hop plant, and the proprietors of Hop Bitters have shown great shrewdness and ability * * *

"In compounding a medicine whose virtues are so palpable to every one's observation."

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about.

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery.

"From a complication of kidney, liver, rheumatic trouble and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names.

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

The Daily Times.

PUBLISHED EVERY AFTERNOON (EXCEPT SUNDAY).

Victoria, Thursday, August 20, 1885.

CITY AND PROVINCE.

—Rear Admiral Buckle, of the British navy, is at the Yellowstone Park.

—A small army office has been established at James Bay by the government.

—The smoke to-day was unusually heavy; it was so thick, in fact, that it could be felt, especially by the eyes.

—Long vacation of the full court exists until October 1st. A welcome holiday to their Lordships.

Rand Bros., Real Estate and Insurance Agents, Victoria and New Westminster.

—A Portland sign of the times—"To let." It is to be seen on every street of the city.

—The Columbia and Puget Sound railroad company hauled from its mines during the month of July 23,084 tons of coal.

—A difficulty has arisen between the city of Nanaimo and the government in reference to the Newcastle townsite survey.

—The effort to establish another line of steamboat service on the east coast is still to the fore, and arrangements are in a fair train for completion.

—The hard glove contest between Young Dutchey and Tom Palmer on Saturday night promises to be a grand display of the manly art. That it will be to a finish is certain.

—Washington territory wheat promises to be something of a feature in the markets of the east this season. The Northern Pacific is making preparations to bring the bulk of it to Duluth.

—The remains of the late Philip Pimbury, of Salt Spring Island, will be sent up by the Amelia to-morrow morning. The funeral will take place at St. Peter's Church, Quamichan, on arrival of steamer.

—The Olympian arrived at 10:30 from Seattle, having about forty passengers and considerable freight on board. Capt. Tom Wright reports the weather terribly thick all along the line.

—A party of Winnipeg ladies are at present visiting the Rockies and the eastern limits of this province. Our Winnipeg fair cousins next summer will be frequent visitors to this coast. They shall be welcomed by many of our bachelors.

—The Tenser arrived at 1:30 to-day with 1275 cases of salmon, 100 kegs of sugar, about 15 tons of miscellaneous freight, and 30 passengers. Capt. Moore reports a heavy wind blowing on the gulf to-day.

—Mr. R. T. Williams of this city is about opening a branch of his bindery at New Westminster. Mr. Williams is a live enterprising gentleman. It would be well for this city if we had more of his stamp.

—Mr. W. H. Philipps, late of London, Ont., and Winnipeg, has begun the business of engraving, die sinking and stamp and stencils, in the shop on the corner of Trounce Alley and Broad street. He makes a specialty of seal engraving work.

—The Olympian arrived about the usual hour this forenoon. The thick atmosphere all over the Sound necessitates careful navigation and compels haste to be made slowly. She brought a miscellaneous consignment of general merchandise.

—List of letters detained for postage at Victoria post office:—Miss A. V. Keller, Frostburg, Md.; C. Roberts, Miller Mine, Md.; R. H. Crowgey, Wytheville, Va.; Jno. A. Thomas, Frostburg, Md.; J. McDonald, Chemainus; Mrs. Sinclair, Fort Hammond; Mrs. Innes, Esquimalt.

—The Cathedral Institute will give a concert to-night in the Sunday school room of the Cathedral. An excellent programme has been prepared for the occasion. It is to be hoped there will be a full house as the Institute is deserving of patronage.

—A large district near the Cowichan Lake has recently been discovered, and it is now being rapidly settled upon. It would be well if farmers of small capital would direct their attention to this promising district, which will be convenient to the markets of this city and Nanaimo, and the railway.

—An esteemed Clinton correspondent informs TIMES that work on the mica mines near that place is being prosecuted with vigor; that the samples taken therefrom and sent to England have proved to be highly satisfactory and that mica mining will hereafter be a settled fact in that section.

—Mr. Phillip Pimbury, of Cowichan, died at St. Joseph's Hospital on Tuesday, aged 58 years. He was a native of Gloucestershire, England, and came to British Columbia in 1862, engaging shortly afterward in sheep farming, which he has carried on successfully ever since, in connection with his brother. Mr. J. G. Pimbury of Nanaimo, and Mr. E. Pimbury, of Cowichan, are brothers of deceased, and like him are among our most respected citizens.

—Services were conducted at the Cathedral yesterday, on the occasion of the funeral of the late Mrs. Marvin, by the Lord Bishop of Columbia, assisted by Rev. Mr. Jenns and the Rev. Mr. Beanlands. The services were of a very impressive character. The casket was covered with floral tributes. The pall bearers were: Messrs. A. Munn, R. Finlayson, R. E. Jackson, E. G. Tilton, Chas. Kent, Dr. Powell, A. W. Jones and E. C. Neufelder.

—A serious misunderstanding is said to exist between the outgoing and incoming administration of the United States sub-treasury in San Francisco, regarding the count of money in the vaults. Mr. Brooks, the newly appointed sub-treasurer, is willing to accept a count by weight, but Mr. Spaulding, the present incumbent, insists on every piece being counted before transfer is made. There are $68,000,000 in the vaults. To count it all over would take from six to eight months. A decision from Washington on the subject is looked for.

—The Olympian brought freight for: T Houghton, Hutcheson, Y & Co, D Spencer, A B Gray, D Campbell, Turner, R & Co, W Denny, T G Vernor, McGregor & Son, C B Engle, A Gilmore, B Williams, A W Ross, Langley & Co, W F Wood, M Lenz, J H Todd & Son, M B Atkinson, Burns & Co, Hamilton, P, Co, E G Prior, C Strauss & Co, H Jewell, Shears & P, W G Cameron, W Heathorn, Marvin & T, T N Hibben & Co, J Cunningham, J Weiler, Mrs E Deig, R F Kerfer, Homer & Son, D McPhaden, D G Campbell, Neufelder & Ross, S J Pitts, Cunningham & Co, G R Ashwell, M L Hadley, J McLeod, M R Robbins, A Ofner, C G Major, S T Brewster, G R Ashwell, E Blun, W Sanders.

Music Lessons.

A young lady who has had the advantage of receiving instruction in music from Professor Oliver King, (Pianist to Princess Louise) is desirous of obtaining a limited number of music pupils, and will give lessons at her residence, or if desired at their own homes. For particulars enquire at M. W. Waitt's music store.

Reckless Expenditure of Public Money.

Nothing can be more humiliating than the unheard of recklessness that characterises the expenditure by our James Bay government of public monies on road work. In the Saanich district it can be shown that in more than one case three men have been employed to do certain work and to look after and superintend these three men another man, at a wage equal to that received by the other three, has been appointed. In many instances these individuals, commonly known as "political bummers," not only draw pay themselves, but likewise an advanced rate for their own teams. As to road making, or a knowledge thereof, they are to utter ignorance. The wrong season of the year is chosen for performing the work, and the result is that the road is a poor one, while the expenditure thereon is such that any honest set of men would blush at their misconduct and mismanagement of the public trust reposed in them. In other districts, to buy political support and favor, members of the cabinet are charged with openly corrupting the electorate. Where a known supporter is found, with a fair roadway to his farm, he is passed over, thinking him to be all right in any event, but where an avowed opponent is pointed out and in want of any favor—in the hope of making him "all right and solid," he receives favors, so unexpected by him, that he naturally asks what does it all mean. The practice prevails to a large degree in the New Westminster and Lillooet districts, represented by the provincial secretary and the attorney general. Boycotting is likewise resorted to, and instructions issued to deal only with such traders as are known to be friendly to the powers that be by men employed on government works. "A fair field and no favor" should be the policy of our rulers in dealing with public affairs and the people's money.

The Restrictive Act.

Two Chinamen arrived on the Olympian to-day and walked ashore without any objection and without paying the fifty dollars imposed by the new act, which was to have gone into operation to-day. It appears that the customs authorities have received no instructions whatever in reference to its enforcement. The Government, never very sincere in its anti-Chinese legislation, is most likely, in the interest of the railway and other magnates, endeavoring to postpone as far as it can the first day of its enforcement. It will now be in order for Messrs. Baker and Shakespeare to rise and explain.

Death of Sir Francis Hincks.

Sir Francis Hincks died of small-pox in Montreal on Tuesday evening. Yesterday's TIMES contained a brief sketch of his eventful life. His death was anticipated. His removal leaves a blank in the ranks of Canada's public men that will be missed. Sir John Macdonald and Hon. Alex. Mackenzie are now the sole survivors of all the gentlemen who held the exalted office of Prime Minister of Canada, both of whom are far advanced in the sere leaf of life. By a remarkable coincidence Mr. Gladstone and Earl Salisbury are likewise the only two living Premiers and ex-Premiers of England.

For One Week Only.

Shears & Page of the London house began their clearance sale this morning, which is to continue for one week. This is a genuine sale of goods and remnants left over from the summer season, and all first-class. This enterprising firm will shortly open out another store on the corner of Fort and Broad streets, in the new brick building being erected there. It will be fitted up specially for their trade, which is rapidly increasing. Meantime they are giving genuine bargains at the London House.

Information About Alaska.

The United States Consul would inform those recently making inquiries at the Consulate about Alaska and the Aleutian Isles, their resources, climate, inhabitants and the measures that have been taken by the United States government for the protection of immigrants, &c., that he has received through the attention of the Interior Department, handsomely illustrated quarto volumes, which are open to their examination at the Consulate. They contain the reports of Ivan Petroff and Henry W. Elliott.

Gathering of the Clans.

Wednesday, 2d Sept., promises to be a grand gala day in the Royal city, it being the occasion of the annual gathering of the Mainland St. Andrews and Caledonia Societies. Visitors from this city will be carried by the Yosemite to and from New Westminster at reduced rates. The officers of the societies have just received superb costumes from Inverness, Scotland. They will present a handsome appearance in their garb of the gael on that occasion.

They Can All Talk, But "Time Tells, and Frost Tries the Potatoes."

The Old John Robinson Show is now on its fifty-ninth annual tour. It has never in all those long years been under any other management than that of its present proprietor, John Robinson. He never splits up; he never divides; he never hunts up partners to help him get out in the spring. No other show on earth can make a record one third as great.

A Growing Church.

The church statistics presented to the late Methodist Conference for the district of Puget Sound give evidence of a great growth in the Church during the past year. The increase of members was shown to be 604, of churches 10, of Sunday schools 18, of Sunday school scholars 557, of mission contributions $223, of church extension contributions $24, and of educational contributions $12.

Excessive Heat.

Tuesday last was the hottest day ever known in Eastern Washington. While we in Victoria were enjoying the most delightful weather, at Riparia, W. T., the thermometer registered 112. at Dayton 105, at Walla Walla 108, at Wallula 105, at Umatilla 108, at Pendleton 105, at Baker City 85, Bialocks 95, Celilo 91, The Dalles 90. A very fine country, probably, but too warm for any person not wishing to graduate for sheol.

The Victoria Club.

The rooms of this new club, corner of Yates and Broad streets, were formally opened last night, when about fifty members were in attendance. The premises are admirably adapted for the purpose, the rooms being numerous and capacious. The furnishing are in keeping with the requirements of the club, but are not as yet altogether completed. The membership is large, being comprised mainly of business and professional men.

Annual Gathering in New Westminster.

The Annual Gathering of the Mainland Caledonian and St. Andrew's Society will take place at New Westminster on Wednesday, 2nd September, 1885. A programme of games is being prepared. The steamer Yosemite will take passengers to and from at a reduced price.

Don't fill the system with quinine in the effect to prevent or cure Fever and Ague. Ayer's Ague Cure is a far more potent preventive and remedy, with the advantage of leaving in the body no poisons to produce dimness, deafness, headache, or other disorders. The proprietors warrant it.

COLLISION THIS MORNING.

Steamer Yosemite Runs a Boat Down —Three Men Drowned.

The steamer Yosemite left the New Westminster wharf at 7:32 a. m. this day, a dense fog prevailing at the time. About four minutes afterwards, shouting was heard from a boat about one and a half points of starboard bow, and not far away. Orders were immediately given to stop and reverse the engines full speed astern. Up to this time nothing was seen of the boat, but the shouting still continued growing nearer. At this moment the boat was seen about thirty feet ahead and fifteen feet off starboard bow, pulling directly across the steamer's bow. A moment afterward the steamer's stern crashed into the small boat demolishing it completely. From From the time the first shout was heard until the collision is variously estimated, at from 10 to 20 seconds. A boat was immediately lowered from the Yosemite, which succeeded in rescuing four Chinese from the water, when it was ascertained that the boat had contained seven Chinese, who were attempting to go from the B. C. P. Co.'s cannery to New Westminster in order to take the steamer to Victoria. They had evidently lost their way, in the dense fog, and become bewildered. The four survivors were left at the B. C. P. Co.'s cannery. The boat was lowered inside of two minutes after the collision.

FULL COURT.

(Before Hon. Justices Crease, Gray, Walkem and McCreight.)

Carson & Eholt vs. Martley and Clark—The judgment of the full court in this cause was to-day delivered by Mr. Justice McCreight, and was in effect reversing the judgment of the Honorable the Chief Justice, at Nisi Prius, when judgment was given in favor of the defendants, Martley and Clark, in the sums of $200 and $500 respectively, against the plaintiffs jointly. To-day's judgment reverses the judgment of the lower court, and gives judgment in favor of the plaintiff, Carson on his claim for $1800 and costs, and reducing the damages of the defendant, Clark, on his counter claim to $250 and making the damages of the defendant, Martley, on his counter claim nominal as against Carson & Eholt, and upholding Carson's water record of 1868.

Wraight vs. Young—The four judges rendered separate judgments to the following effect: 1st, directing a new trial; 2nd, no costs of apeal to either party; 3rd, costs of first trial to be dealt with on the new trial. Mr. Justice Crease was of opinion that the Chief Justice's judgment in favor of the defendant, Young, should be sustained on the ground that the court had all the facts before it and ought therefore to deal with the case, and not drive the parties to a new trial, more especially as there could be no question, upon the evidence, that the defendant must eventually succeed.

Carson vs. Martley—Judgment for plaintiff for $1800 and the defendant's judgment for $500 reduced to $250. Plaintiff with leave to recover cost of cause. Defendant's costs allowed on his counter claim.

POLICE COURT.

(Before Mayor Rithet and T. Shotbolt.)

Peter Daley, begging on the streets. Prisoner pleaded guilty. He said that he had only been in Victoria twenty-four hours, and promised if let off never to appear again. Discharged with a caution.

John Bell, begging alms on Government street. The offence was admitted, and it was pleaded in extenuation that he was unable to work because of an injured hand. Remanded until to-morrow for medical examination.

Jack, a Chinese boy, stealing three books and a quantity of knives, the property of Rowe Solomon. Mrs. Solomon testified that Jack had come into her employ on Sunday morning last and in two days she had missed three silver spoons, knives and forks, and believed him to be the thief. She had searched his pockets on Monday evening and found them full of soap and other articles belonging to her. The charge of stealing books was proved and Jack was given one month with hard labor.

PERSONAL MENTION.

C. D. Wellesley and wife, England are at the Driard.

Rev. Mr. Percival returned from New Westminster to-day.

Queen Victoria is making elaborate arrangements for Beatrice to come out in society next winter.

Mr. Villard is coming from Berlin to London this month, and in September he will return to the United States.

W. A. Stevenson, Nova Scotia; Jno. K. Gould, St. Louis; A. E. Phelps, Schenectaday, N. Y., and P. H. Hunter, The Dalles, are at the Occidental.

C. F. Roe, U. S. A., is registered at the Driard, Miss E. A. Plankinton, J. T. Flint, of Milwaukee; W. T. Robbins, Conn.; and J. Campbell, San Francisco, are stopping at the Driard.

The Olympian brought the following passengers to-day: J Shannighan, H H Browning, W F Browning, H Petie, A Stevens, M Rowes, wife and 2 children, J G Flint and wife, W K Flint, Captain Tibbles, W Sanders, E Donoghue, Mrs I. M Hadley, M McPhee, Mrs Dailey, C E Wellesby and wife, H C Corree, Miss Plumkton, B Harrison and wife, F A Wright, J G Fuller, J Wilson, R Heddle and wife, R Hall, Miss McPhee, M F Robbins, M McKinnon, C Bashes, F H Austin, M Farrell and wife, A W Bash.

Grain Shipment to British Columbia.

Says the Portland Oregonian: Arrangements have now been made by which shipments of flour, grain, etc., can be taken regularly from Portland to New Westminster, via Victoria, connecting at that point with the steamers of the Canadian Pacific Navigation Company. This latter company has agreed to make a round rate of $2.50. per ton without regard to classification from Victoria to New Westminster upon this freight. This rate includes all charges for rebounding, wharfage, etc., at Victoria, but will not cover powder, high explosives or unusually heavy machinery. Under the new arrangement the rate on flour and feed will remain the same as formerly, viz: $4 per ton from Portland to New Westminster, while the rate on merchandise will be $6.50 per ton; and it gives a daily service instead of weekly as heretofore.

Off For Portland.

The Olympian left at 1 o'clock sharp, carrying our base ball nine and at least one hundred other citizens. A large number of ladies were in the party, all of whom go through to Portland, and will return again within ten days. There is no question that they will have a pleasant time, as each individual member of the party seemed bent on extracting all the pleasure out of the trip that could by any means be found in it. Our boys may not win, but if they don't they will succeed in making it unpleasantly warm for their opponents, from whom, by the way, they will meet with a cordial reception.

Young, old, and middled-aged, all experience the wonderful beneficial effects of Ayer's Sarsaparilla. Young children suffering from sore eyes, sore ears, scald-head, or with any scrofulous or syphilitic taint, may in scale healthy and strong by its use.

Sir Hector Langevin is reported to have said recently that there was no use for Riel's friends to trouble themselves about a commutation of Riel's sentence as the government had no intention of executing him.
